POWERS

Telepathy
=====

Telepathic Link (Standard, Concentration): The character can communicate telepathically with one person at a time, and they must have met or seen the other person before. The communication can be verbal, visual or even more complex, such as imparting location information. There is no limit to the distance of the communication, as long as the character and the target are in the same dimension. If the other person does not wish to speak with the character, the target can automatically tune them out. To force a telepathic link, the character can make a Logic check against the target's Vigilance defense. On a failure, the character cannot attempt to communicate with the target in this way for the rest of the day. On a success, the character can communicate with the target for as long as the concentration lasts. On a Fantastic success, the target cannot shut the character out for the rest of the day.

Telepathy
=====

Mental Punch (Standard, Instant): The character makes a Melee attack against a target. If the attack is a success, it inflicts regular Focus damage (instead of Health damage). On a Fantastic success, the target takes double damage instead and is stunned for one round.

Mind Reading (Standard, 1 round): The character can read the thoughts of a single person with whom they have established a Telepathic Link. This requires a Logic check against the target's Logic defense. On a success, the character can read the target's surface thoughts. On a Fantastic success, the character can ask a single simple question and get the answer from the target's mind.

Mind Interrogation (Standard, 1 round, Cost: 5 Focus): The character can delve into the mind of a single person with whom they have established a telepathic link. This requires a Logic check against the target's Logic defense. On a success, the character can ask a single simple question and get the answer from the target's mind. On a Fantastic success, the character can get more complex information.

Telepathy
=====

Telepathic Blast (Standard, Instant, Cost: 5 Focus): The character makes a Logic attack against a target in line of sight. If the attack is a success, it inflicts regular Focus damage. On a Fantastic success, the target takes double damage instead and is stunned for one round.
