POWERS

Elemental Control: Force ===== Elemental Burst (Standard, Instant, 10 spaces): The character makes a ranged attack against an enemy in line of sight. If the attack is a success, it inflicts regular damage. On a Fantastic success, the enemy takes double damage instead and has trouble on all actions for one round.	Elemental Barrier: Force (Standard, Concentration, Cost: 5 Focus): The character forms a wall of their element within their line of sight and up to 10 spaces away per rank. This covers up to 2 spaces across (vertically/horizontally) per their rank. The character makes an Agility check and compares the results against the Agility defense of any target in the affected spaces. On a success, the character chooses which side of the barrier the target winds up on. On a failure, the target chooses. On a Fantastic success, the target has trouble on all actions for one round. Attacks against the barrier are against the character's Ego defense. Any attacks against it that do 10 points of damage or less are instantly absorbed, and the barrier continues. If an attack does more than 10 points of damage, it destroys the barrier. Either way, the attack leaves those behind the barrier unharmed.	Elemental Protection (Standard or Reaction, Concentration, Cost: 5 Focus): [Trigger: The character is attacked or otherwise in danger.] The character protects themselves with their element. Any attacks against them that do 10 points of damage or less are instantly absorbed, and the protection continues. If an attack does more than 10 points of damage, it destroys the protection, allowing excess damage through. Elemental Sphere (Standard or Reaction, Concentration, Cost: 5 Focus): The character envelops themselves—and any chosen people within up to 5 spaces times their rank—in a protective sphere comprised of their element. When the sphere is formed, the character makes an Ego check and compares the results against the Agility defense of unwanted characters in the enclosed spaces. On a success, the character can move any unwanted people within the sphere's perimeter to spaces outside of the sphere. On a Fantastic success, such moved people suffer full damage and have trouble on all actions for one round. Attacks against the sphere are against the character's Ego defense. Any attacks against the sphere are absorbed as if made against the character's Elemental Protection power, and the sphere continues. If an attack does more damage than the character's Elemental Protection power can sustain, it destroys the sphere, but no one inside is harmed.
